

Loop-de-Loops

Make crazy spirals using number patterns!

1

FIRST, PICK THREE NUMBERS.
HOW ABOUT 2, 3 AND 4?

2

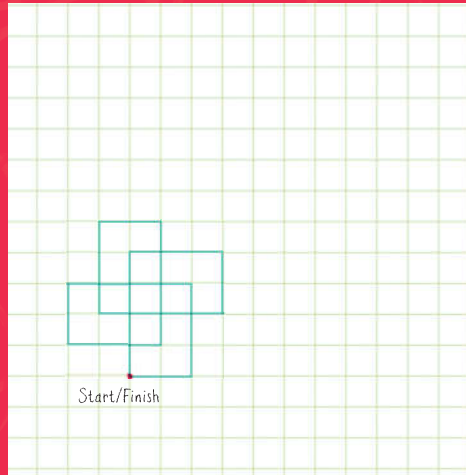

PICK A POINT ON THE GRID TO START.

3

START DRAWING LINES IN A SPIRAL (FIRST TO THE RIGHT, THEN UP, THEN TO THE LEFT, AND THEN DOWN). MAKE YOUR FIRST LINE 2 SQUARES LONG, NEXT 2 SQUARES LONG, NEXT 3 SQUARES LONG, NEXT 4 SQUARES LONG, AND THEN GO BACK TO 2 SQUARES LONG FOR THE DOWN STROKE.

4

KEEP DRAWING AROUND AND AROUND UNTIL YOU GET BACK TO THE START! YOU'VE MADE A 2-3-4 LOOP-DE-LOOP!

YOU CAN COLOR YOUR LOOP-DE-LOOP WHEN IT'S DONE.

MAKE A 2-1-4 LOOP-DE-LOOP.

MAKE A 3-5-2 LOOP-DE-LOOP!
(Don't worry if some of the lines overlap.)

WHAT DO YOU THINK WOULD HAPPEN IF YOU SWITCHED 2-1-4 TO 4-1-2? TRY IT!

Now make your own!

How about some colour?
